Tidoo Night & Day

Leak-proof, Eco-friendly disposable nappies

Tidoo - Jumbo MINI x64, MIDI x56, MAXI x50, MAXI+ x48, JUNIOR x46, XL x38

Composition:

- 50% biodegradable raw materials.
- FSC® cellulose or wood pulp, 100% responsibly sourced fibres.
- Free from chlorine, perfume and latex.
- The stretch panels are welded, not glued.

Certifications:

- FSC® MIX certification guarantees that our cellulose comes from responsibly sourced fibres.
- Tidoo's ethics also extend to job creation, by manufacturing the Night&Day range in France.

About the Night&Day range:

Combine Serenity, Softness and the Environment with TIDOO Night&Day, the first leak-proof, eco-friendly disposable nappy range ever made in France.

It took over a year of research to develop a formula that combines cutting-edge anti-leak technology with a commitment to the environment.

Description:

Nearly 100% of mums use disposable nappies today. But until they are potty trained, each child creates 1 tonne of waste from changing products.

That's why Tidoo created Night&Day, the first 50% biodegradable disposable nappy, which is good for Mum and for the Earth, while keeping jobs in France.

> 12-hour leak protection

Easy to use, Tidoo Night&Day disposable nappies keep baby comfortable and bring Mum peace of mind, day and night for 12 hours! The thin mattress is drained through the top layer to the absorbent core, made of FSC® certified cellulose, sealing in liquid. The leak-proof side barriers that hug baby's thighs provide additional safety for maximum leak protection.

> Everything baby needs to be comfortable

Hypoallergenic and dermatologically tested, TIDOO Night&Day disposable nappies protect all babies' skin, even the most sensitive. The nappy's breathable, micro-ventilated outer layer provides total well-being for baby's skin, allowing air exchange with the outside, without the risk of leaks. The absorbent pad is cut to follow the contours of the body, allowing ease of movement without discomfort to the crotch.

To close the nappy, it's easy! Two stretchy, ultra-adhesive Velcro fasteners can be positioned and repositioned easily.

And to round off this uniquely relaxing experience, give baby the chance to see endangered baby animals for the first time: Asian elephant, turtle, Bonobo monkey, blue whale and giant panda.

Made in France
