Pascal Piveteau grew up in a family where art and creation were dominant. With a painter and pianist as a mother and a father practicing industrial design, inspiration comes naturally to the young Pascal. Yet he chooses a corporate career. After 20 years as the CEO of his own steel company he decides to dedicate his life to creation and "couture". The passion for horses he shares with his daughter leads him to create the first brand in leather riding clothes. He discovers stretch-leathers from the finest French tanneries. This material proves his brand's authenticity. He then creates Pascal Piveteau's 'Paris French Leather Couture'. His solid international experience gained during his early life, allowed him to expand overseas mainly in Asia and America. His first fashion show in Hong Kong in 2013 was a real success : the collection was acclaimed by influential buyers such as the prestigious stores, but also by the entertainment world. Thus Sharon Stone, Felicity Hoffman, Adrian Brody, Zoé Félix, Marilou Berry, Alma Jodorowsky, Claude Lelouch and many others have already been seduced by the creations of Pascal Piveteau. Arousing new emotions is the biggest motivation for this new designer.

Our vision of luxury : The handmade

Leather and leather stretch Pascal Piveteau are coming from various European tanneries which we reprocess and final cut in Paris, France.

Pascal Piveteau and the artisans accompanying him use secular gestures and simple tools to produce and cut clean and elegant forms. Whether it is Box, bull, lambskin, crocodile smoothed with Agathe stone, ostrich, stingray, lizard or hand painted python, it is always sublimated by the fiddly work of the artisans in order to satisfy our demanding and prestigious clientele.

The process of making the clothes and the accessories requires a large number of highly qualified people. The creator's

extensive experience and vigilance are the elements that guarantee a good coordination and making.

These professionals with an authentic know-how produce each model from a single patron produced by the modeler.

Each clothe is unique

The work and attention required for each piece does not allow Pascal Piveteau to produce and drawn as many models as he would like to. Each piece is unique and especially made for its owner. The customer buys rarity. Pascal Piveteau guarantees each piece individually ; he sign by hand each label and assigns an authentication number.
