French Tech in Kansai - Pitch & Demo Session

Wednesday 7th of December, 09:00 to 14:00

Osaka Innovation Hub

Following the launch of French Tech Tokyo in October 2015, an event called French Tech in Kansai will be held within the “Grand forum de l’année de l’innovation franco-japonaise” (6th and 7th December 2016) in Osaka.

In the morning of December 7th, a pitch session, a demo time and a networking lunch will be organized at Osaka Innovation Hub gathering about 150 guests of the Kansai IT industry.

8 startups from France and 8 startups from Japan will participate to the pitch session. The participating startups will introduce themselves through English pitches and then demonstrate their technologies at their own booth.

You are warmly invited to attend this session of pitch, as well as the demos and the following lunch. We truly think that this will be a perfect opportunity to come and discover French and Japanese IT innovation while networking with other guests.

When? Wednesday 7th of December, 9:00 to 14:00 (registration starts at 8:30)

- 9.00 – 9.30: Welcome addresses
- 9.30 – 9.45: Dassault systems addresses
- 9.45 – 11.40: Pitch session
- 11.40–12.00: How start-ups are dealing with Corporate Social Responsibility
- 12.00–12.05: MoU signature ceremony between the French Tech hub Tokyo and Makers Boot Camp
- 12.05– 12.15: Closing remarks in presence of French Tech Kansai
- 12.15: Demos and networking

Where? Osaka Innovation Hub
Grand Front Osaka, Knowledge Capital Tower, C-7F

For details regarding the program of event

Should you are willing to attend this event, please be kind enough to register online at:
<http://innovationforumosaka.com/>

Please note that all the pitches will be translated simultaneously from English to Japanese.
